

Neha Valuthundil Shaji

BSC (HONS) CREATIVE COMPUTING STUDENT | MACHINE LEARNING & DATA SCIENCE ENTHUSIAST

nehavshaji@gmail.com | Sharjah, UAE

Portfolio: nehashaji.github.io/Digital-portfolio | **LinkedIn:** linkedin.com/in/nehavshaji

PROFESSIONAL OBJECTIVE

Final-year Creative Computing student with a great interest in Machine Learning and Data Science. Experienced in developing data-driven apps, creating predictive models, and analysing information to extract valuable insights. Expertise in Python-based machine learning workflows and the integration of analytical solutions with modern web technologies. Seeking opportunities to use my technical and problem-solving abilities to create intelligent digital systems and contribute to real-world data-driven solutions.

TECHNICAL SKILLS

- **Programming Languages:-** Python, JavaScript, SQL, HTML5, CSS3/SCSS, C#.
- **Machine Learning & Data Tools:-** Pandas, NumPy, Matplotlib, Seaborn, TensorFlow, Keras, Scikit-learn.
- **Web Development:-** React, Node.js, Express, Gradio, Responsive Web Design.
- **Tools & Platforms:-** Git, GitHub, VS Code, Figma, MongoDB, Unity, Android Studio.
- **Core Competencies:-** Machine Learning, Predictive Modeling, Data Analysis, Data Visualization, Full-Stack Web Development, UI/UX Design.

ACADEMIC PROJECTS

Weather Image Classification (CNN & Transfer Learning)

- Investigated transfer learning for small-scale weather image classification using MobileNetV2 with augmentation and performance evaluation; deployed interactive inference interface demonstrating model generalisation.
- **Kaggle Link :** <https://www.kaggle.com/code/neha005/weather-image-classification-ml-project>

Sports Car Price Prediction (Regression)

- Conducted data cleaning and feature preparation (-1k records) and evaluated regression models using cross-validation to assess predictive stability and feature influence.
- **Kaggle Link :** <https://www.kaggle.com/code/neha005/01-regression-task>

Bookify - Full-Stack Book Discovery Application

- Designed a full-stack book discovery platform improving user data retrieval efficiency and supporting seamless record management through a dynamic React/MongoDB integration.
- **Live link:-** <https://bookify-discovery.vercel.app/>

EDUCATION

BSc (Hons) Creative Computing

Sep 2023 - Present

Bath Spa University, RAK Campus

- Academic Award: [Academic Excellence - Semester 2](#)
- Relevant Coursework: Machine Learning, Web Development, Smartphone Apps

CERTIFICATIONS

- **IBM:** [Python for Data Science](#)
- **Kaggle:** [Intro & Intermediate Machine Learning](#); [Intro to SQL](#)
- **LinkedIn Learning:** [Building RESTful APIs with Node.js & Express](#)
- **LinkedIn Learning:** [Responsive Web Design](#)
